

Ali Firozmand

Front-End developer

📍 isfahan 📞 09135703669 @ firozmand.dev@gmail.com

Summary

I hold a degree in software engineering from Shamsipour University in Tehran, Iran. My professional journey commenced in 2019 when I took on the role of a front-end developer. Between 2019 and 2021, I engaged in freelance work on a variety of web projects. Subsequently, from 2021 to 2023, I collaborated as a front-end developer on Direktem project. After completing my military service from December 2023 to December 2024, I am now prepared to continue my career in front-end development, with an emphasis on creating interactive and optimized applications.

Experience

Directam

Front-End

🔗 <https://directam.ir/>

During the two years I worked as a front-end developer in the Directam team, I was involved in developing a platform specifically focused on automated responses to social media direct messages. This experience was a valuable opportunity for me to work extensively with Vue.js and Nuxt.js, enhancing my skills in building interactive and optimized web applications.
